

In 1992, Allmonde International set up agency office represented Australia New South Wales Grain Board to involve in grains business in Chinese market. Henceforth we representing NGB to develop Australian barley and canola business into China market and increasing NGB's market shares in China for more than 10 years.

In 2002, Allmonde International represented "GrainCorp Operation Limited" one of the largest public listed agribusiness in east coast of Australia to keep developing grain [business](#) after NGB was merged by Graincorp for another 10 years. Allmonde International helped GrainCorp to expand their grain business in China, with Allmonde International's efficient and valuable supports and market developments GrainCorp became to be one of the three biggest and successful major Australian grains suppliers in China market.

Nowadays accompanied with globalization trend you will face to a more opened China market, Under the huge and openly Chinese market, Allmonde International build and develop the new business strategy of finding the best match of global resources. We continuously represent the United States, Australia and other origins' major grain companies to develop their business in China. All these market developments and achievements reply on our more a decade's grain business experiences and enriched clients resources in China.

In the future we hope to provide the most reliable and quality clients from China to those suppliers from grain industry. Meanwhile we also will ensure these reliable and quality clients could receive the best quality grain resources from different origins. We currently involved grains including barley, wheat, sorghum, canola, cottonseed, maize etc.
